PROJECTS & EXPERIENCE

SmarTanom: IoT Hydroponics Monitoring | 2025

Capstone Project

- Contributed to system requirements, documentation, analysis, and investment support.

WebDevelopment

Frontend Project

- Assisted in developing responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Created simple layouts and components following basic UI/UX principles.
- Implemented basic interactivity such as form handling, button actions, and input validation.

ORGANIZATIONAL EXPERIENCE

TRACE – Trailblazers' Association for Campus Esports

Head Marshal for Esports Game Tournaments

- Supervised esports tournaments to ensure fair play, adherence to rules, and smooth event flow.
- Managed participants, coordinated match schedules, and resolved on-site concerns during events.
- Maintained order and discipline among players and spectators to support a professional competitive environment.
- Assisted organizers in overall event operations, including setup, coordination, and post-event activities.
